During the conference each session will be allocated time in the programme for displaying the pre-recorded presentations. This will be followed by the live Q&A and discussion, moderated by session chair. Speakers will be asked to take active part in their session to address the questions and participate in the discussion. Please note that it will not be possible to present the presentation live. Technical support will play the relevant videos from the uploaded pre-recorded talks.

Few days before the event all participants will be provided with a link to access the event platform (PINE Tool) in the invitation e-mail sent from PINE. All participants will be asked to set-up an account to access the sessions, providing e-mail address and creating a password.

General recommendations for preparing a presentation

1. Speakers are entirely responsible for the presentation content (e.g., slide order, graphics).
2. While recording a presentation avoid bright lights and windows in the background. Front-facing natural light works best.
3. Please, avoid a cluttered and distracting background.
4. Presenters are asked to wear proper attire for the recording.
